

\$10,000 that is allocated by policy for an Administrative Assistant or Committee Clerk to the Chairman of the Appropriations Committee. It was my attitude that I've cut... or getting credit, or blame in some cases the committee for cutting other areas. I thought that resulted in the necessity that I also make sure I cut myself. That accounts for the \$140,000. I think it creates no problem at all for the operation of the Legislature. I'm sure it will be more than adequately funded. I move for the adoption of that committee amendment. I think I have a second one up there, Vince. I should take that one first.

PRESIDENT: Senator Kremer.

CLERK: You have just the one amendment, right.

SENATOR WARNER: Oh, excuse me. Yes. I'm thinking...forgot. The bill is drafted with those amendments in it..those reductions in it by the committee. The amendment I have up there, which I move the adoption of, does three things. One is that in the event that LB 4 does pass there would be need to allow funding for the Conflict of Interest Committee which now exists. The amendment that is on the desk adds no money, it just merely indicates that that function would continue to be paid for, whatever cost, and they're minimal, from the Legislative Services Program. The second amendment merely shifts \$30,000 from Legislative Services to Bill Drafting. This represents the temporary help that works in Emory Burnett's office. It appropriately should have been in with Bill Drafting rather than Legislative Services. It was intended to be. It is corrective. The final part of the amendment is Personal Services Limitation and continuation budgets for next year, the same as we have done for all other agencies. I'll move the adoption of that amendment.

PRESIDENT: Senator Kremer.

SENATOR KREMER: Mine is on the bill, Mr. Chairman.

PRESIDENT: I guess this is your own amendment, isn't it, Senator Warner? Yes, okay. That is the question. Record your vote. Record.

CLERK: 29 ayes to adopt the Warner amendment.

PRESIDENT: The Warner amendment is adopted. Just leaving the South balcony are 25 students from St. Paul Lutheran School in Beatrice. That is in Senator Burrow's district. Apparently we had a group from Grand Island, Stolley Park Elementary, Senator Kelly, 35 students were supposed to be in the North balcony. Mr. Clerk.

CLERK: I have no further amendments on the bill.

PRESIDENT: Alright. You move to advance the bill, Senator Warner?

CLERK: Senator Kremer wanted to talk to it.

PRESIDENT: Yes. Your motion is to advance the bill.

SENATOR WARNER: Yes Mr. President.

PRESIDENT: Alright. Senator Kremer.
